

# 12FT Subsea basket with A-frame

- Designed with efficiency in mind

- A-frame solution with the single point lift saves operational time
- ROV/Diver operated doors also allow for safe entering on deck
- Weldable beams in the baskets bottom structure
- 10T D-rings fitted for seafastening of both basket and cargo
- Standard 12ft Iso-lock footprint to ease transportation and seafastening.

## Technical data:

- Payload: 13000kg
- Tare weight: 3700 kg (estimated)
- External footprint (LxWxH): 3660 x 2432 x 1678 (A-frame down)
- Internal dimensions (LxWxH): 3370 x 2132 x 1182
- Designed according to DNV 2-7.3 R60 S45
- Certified according to ILO Form 4
